0289 The Office - Presentation Series 7 - Handling Technical Problems

Oops...the PowerPoint isn't working... When making a presentation, it's extremely important that you are prepared for any technical difficulties along the way. A good rule of thumb is to arrive early, make sure your computer and files are working, and to practice beforehand. A presentation that has a lot of technical problems looks messy and unprofessional, and will cause you to lose your audience. Join us at EnglishPod for our Presentation Series, as we learn how to avoid these problems!
